# CK128 User Manual

Picture is for reference only

Dear Customer

Thank you for your excellent choice of CK128 music lamp. Please read instructions carefully before operating this Bluetooth speaker in order to bring it into full play. Unpack the box, please make sure you get following product and accessories: 1* Music Lamp, 1* Micro USB Charging Cable, 1* User Manual. Please keep user manual properly for further reference.

Product Introduction

Adopting digital signal processing technique, CK128 is an advanced and portable wireless music lamp for Bluetooth play, TF/SD card, external audio input and amplification, compatible with most Bluetooth enabled devices and applicable to indoor entertainment and outdoor activities.

Attentions

For better performance maintaining, please keep this speaker away from following conditions:

● Damp or underwater conditions
● High-temperature conditions
● Direct-sun exposure conditions
● Easy fall off conditions

Warnings

⚠ Please keep it away from water and damp.

⚠ Please make sure it is charged with specified voltage to avoid fire or electric shock hazards.

Power Supply

Powered by the built-in 3.7V lithium battery. Please fully charge the speaker 3~5hrs before first time use and make sure to charge this speaker once a month due to its 3.7V self power consuming lithium battery. It takes about 3hrs to be
fully charged with a standard micro USB cable (DV 5V) if this speaker run out of juice completely.

This speaker could be charged any time in any mode, however, playing music while charging would greatly lower charging efficiency which is not recommended since there would be a relatively huge current consumption. Please make sure this speaker is fully charged and do please remember to unplug micro USB charging cable before music playing.

Charging Alert

Speaker beeps the first time indicating less than 10% battery jucie during music mode; Speaker beeps several times during music mode and power off automatically, do please to re-charge it.

Technical Parameters

Battery Capacity: 3.7V, 2000mAh

Charging Time: 3-3.5H

Driver Diameter: φ52*32mm

Speaker Power: 4Ω, 4W

Frequency Response: 70HZ-20KHZ

Bluetooth Version: V2.1+EDR

Distortion: ≤0.5%

SNR: ≥65db

Main Material: ABS/PP, stainless steel

Product Dimensions: 86*86*121mm

Weight: 350g

Light Power: 1.2W

Troubleshooting

Situation	Solution
Bluetooth failed to connect	Make sure it is disconnected with previous device since it would auto-connect to the last connected device. Please search and connect speaker with new device.
Low or no volume	A: This speaker is designed with low output volume . B: Make sure you've turned up volume of both devices and this speaker.
Poor Bluetooth connection while playing music	Make sure there is no barrier between the speaker and your Bluetooth device. Make sure the speaker isn't too far away from your Bluetooth device. Working scope is less than 10 meters.

Indicator light is off during music playing	Low battery and please to charge
Failed to connect with two devices	It could not pair with two devices simultaneously. Please disconnect with the first device and turn off the Bluetooth function of the first device. To pair and connect with the second device, please turn on the Bluetooth of the second device to pair with this speaker.
No audio output from TF/SD card	A: Check the volume and the play/pause button. B: Make sure TF/SD card insert into card slot completely. C: Try new music. The original music might be incompatible or damaged..
Reset	If the above measures could not solve the problem, please reset this speaker.

Tips
● Don't disassemble or remold it
● Please charge it within the required power range
● Please keep the volume moderate to avoid hearing damage
● Disassembling it renders the warranty invalid
